

5th SGH CLINICAL PATHOLOGY FRONTIERS IN TECHNOLOGY WORKSHOP

Chemical Pathology: Building on Basics *Methods and Techniques II*

Ready to build on laboratory medicine fundamentals?
JOIN US VIRTUAL on **14 Oct 2022**

This workshop is a follow-on to last year's back-to-basics program. The program will build on the foundations and level up to complex analytical challenges; featuring a series of insightful lectures on the limitations and pitfalls of common yet important assay methodologies, with relevance to clinical applications and state-of-the-art practices.

Highlights:

- ✓ Advance knowledge of clinical lab tests
- ✓ Insights into limitations of assay methods
- ✓ Engage in interactive sessions and debates

Registration:

SGD \$70* / \$100

*Before 26 Sep 2022 or SSP/Chapter of Pathologists members

Closing Date: 01 Oct 2022

Workshop Program

8:50 – 9:00	Opening Address
9:00 – 9:30	Building on Basics
9.30 – 10:00	Analytical Matrices – The Beginning
10:00 – 10:30	Industry Sponsored Session I – Impact of Quality HbA1c Testing on Diabetes Care and Management
10:30 – 10:45	Break I
10:45 – 11:15	The Triplets of Interferences - Haemolysis, Icterus, Lipaemia
11:15 – 11:45	All about Vitamin D and its Measurement
11:45 – 12:15	Industry Sponsored Session II – Early Detection and Management of Sepsis
12:15 – 13:15	Interactive Session
13:15 – 14:00	Break II
14:00 – 14:30	Industry Sponsored Session III – Superior Resolution Haemoglobin Separation Technology for HbA1c Measurement, Accurate Diabetes Diagnosis and Management
14:30 – 15:00	Trace Metal Testing in Occupational Health Surveillance
15:00 – 15:30	Re-visiting the Controversies of Creatinine Assays
15.30 – 16:00	101 of Blood Gas Analysis
16:00 – 16:15	Break III
16:15 – 16:45	Industry Sponsored Session IV – Chemiluminescence Immunoassays Update in Autoimmunity
16:45 – 17:15	Bence Jones Proteins and Serum Free Light Chain Measurements
17:15 – 17:45	Laboratory Insights into Body Fluid Testing
17:45 – 17:50	Closing Address
