7
Vet the specimens entered and rest of the clinical info

OT nurse will tick 'Specimen Label completed' once they have completed specimen labelling

a) Tick 'Vetted & Order Form Completed (Dr Only)' if no more specimens to send
b) Submit the order

ADD Site & Nature of Specimen Click Here To Add -> Site & Nature Of Specimen

Copy Site from Specimen Label

OT Room
R4 / MOT

(Routine) Site & Nature of Specimen
1) STOMACH

(Frozen Section) Site & Nature of Specimen
1) Lymph node

Order will be processed at Pathology only when BOTH 'Vetted & Order Form Completed (Dr Only)' and 'Specimen Label Completed' have been ticked (exclude Frozen Section)

Specimen Label Completed

Vetted & Order Form Completed (Dr Only)

NOTE:

- **Must Tick 'Vetted & Order Form Completed (Dr Only)'**. Lab is unable to process the order if the order is not completed, and this will delay the reporting of results.
- **No modification to order form allowed** once 'Vetted & Order Form Completed (Dr Only)' is checked.
- Any **changes to Site & Nature of Specimen** will require reprinting of label and relabeling of specimen.
 - Inform Nurse to reprint and relabel.
 - If specimen already dispatched, Lab will request Dr/Nurse to bring the reprinted Labels to Academia Level 10 HistoCyto Lab.
- **DO NOT cancel order** that has Frozen Section (FS) specimen dispatched to FS lab, and if order form completed for the order, raise paper memo to Lab for further corrections to the order. (Check with nurse to get pre-printed memo)

How to add Drawing (Optional)

Body Part (For Drawing) Eyelids

ADD Drawing Click Here To Launch -> Drawing Tool

1) Select Body

2) Click button to launch drawing tool

3) Select the required icon tool and draw it on the template.
