

The name “Synergy” was chosen to convey PGAHI’s commitment on leveraging people networks, interconnectedness and capabilities of different stakeholders to bring about quality training to Allied Health Professionals (AHPs).

The letter “S” is shaded with different colours to denote various stakeholders; and its wavy flow that culminates with an arrow signifies all stakeholders synergising to achieve shared goals.

Synergy serves not only as an additional contact point between PGAHI and its stakeholders but also our gesture to recognise our partners in giving their best in conducting training sessions to level up the professionalism and clinical competence of AHPs.

## PGAHI Faculty Engagement Day

*Partner(s): PGAHI Faculty members, SGH Allied Health Department HODs*

The PGAHI Faculty comprises a group of clinician educators who have responded to their call to impart knowledge and skills to Allied Health Professionals (AHPs). The Faculty is made up of AHPs of diverse disciplines, and all of them share a common goal of enhancing the standards of patient care through Continuous Professional Education (CPE).

On 5 August 2016, PGAHI organised PGAHI Faculty Engagement Day – Heart of an Educator to show our appreciation to the Faculty members. Besides having fun filled activities to further heighten desirable traits of an effective educator, they also acquired knowledge of using Infotech tools to augment teaching.

We would like to thank our **Faculty members** who are committed to teaching.

## Continuing Education Lecture Series

*Partner(s): LEE Foundation, SGH Allied Health Departments, Lecture Speakers*

Tapping on SGH’s wealth of clinical expertise and the donation from LEE Foundation, PGAHI organises and conducts a series of complimentary lectures for the continuing professional upgrading of Allied Health Professionals (AHPs).

The lectures cover practical and engaging topics and are usually held once a month in the evening.

To date, PGAHI had organised 17 Continuing Education (CE) lectures for AHPs in FY 16. There were about 1,000 AHPs who had benefitted from the lectures.

PGAHI would like to thank **LEE Foundation** for the donation and also speakers from **SGH AH Dept and various organisations**.

## PGAHI Courses by SGH Dietitians

**Partner(s): SGH Department of Dietetics**

PGAHI collaborates with SGH Allied Health Departments to provide training for AHPs to enhance their clinical competence.

SGH Dietitians conduct various workshops regularly in PGAHI: Diabetes Nutrition workshop, Medical Nutrition Therapy for Chronic Kidney Disease Stage 1-3, Specialty Programme on Diabetes Management - Medical Nutrition Therapy for Diabetes course and Introduction to "DAFNE Healthcare Professionals Workshop".

Over the past 3 years, the workshops had exceeded 95% satisfaction rating and were well-attended by Dietitians, AHPs and nurses, where applicable.

Through their guidance, participants were equipped with the needed knowledge to meet the increasing diversity of cases that they might come across both in the acute and community care setting.

We would like to specially commend the course educators for their active work in postgraduate allied health education.

## BSc (Hons) Radiographic Studies Graduation Ceremony

**Partner(s): LSBU, SGH Department of Diagnostic Radiology, Radiography Clinical Faculty**

LSBU has partnered with PGAHI in the Bachelor of Science (Honours) Radiographic Studies since Year 2012. This collaboration on the degree conversion programme came as a response to meet the national needs of aspiring radiographers who wished to upgrade themselves.

This year, PGAHI and LSBU jointly organised the 4<sup>th</sup> Graduation Ceremony on 23 June 2016 with 38 graduands from the degree conversion programme.

A/Prof Benjamin Ong, Director of Medical Services, Ministry of Health, was the Guest-of-Honour.

To-date, we have 120 radiographers who had graduated from the programme.

We would like to thank our partners for making this joyous celebration possible.
