Continuing Professional Education Lecture: An Introduction to Infertility and Assisted Reproductive Technology

12 August 2020

Synopsis

More couples are seeking treatment for infertility and using assisted reproductive technology to conceive. This lecture aims to provide a basic overview of infertility and the various treatment options available to couples, with a focus on common medications used in assisted reproductive treatment.

Speaker

Dr Serene Lim
Consultant

Department of Obstetrics & Gynaecology
Singapore General Hospital

Dr Serene Lim received her O&G specialist accreditation in 2015 and completed her ART training with SGH Centre of Assisted Reproduction in 2018. She was awarded the HMDP scholarship to pursue further training in ART and fertility preservation in the Royal Women's Hospital in Melbourne and completed her one- year fellowship in December 2019.
