

Continuing Professional Education Lecture: Vaccinations for the General Population – An Update

3 November 2022

Synopsis

Enabling life-long well-being has become a key focus for preventative medicine in the 21st Century. Maintaining an adaptive and resilient immune system to protect us from infections is crucial to healthy ageing. Whilst healthy lifestyle with proper diet and regular exercise are important, preventive measures such as vaccination to strengthen our immune system contribute to this healthy ageing.

After the lecture, the participants will be able to gain an understanding on:

- Recommended Vaccinations for Adults
- Concept of Immunosenescence
- Use of specific Vaccines including Recombinant Zoster Vaccine

Registration

Target Audience

Pharmacists

Speaker

Clinical Assoc Prof Limin Wijaya
Senior Consultant
Department of Infectious Diseases
Singapore General Hospital

Clinical Associate Professor Limin Wijaya is a Senior Consultant in the Department of Infectious Diseases at Singapore General Hospital. She has a special interest in Tropical Medicine and Vaccines. She set up the Travel Clinic in 2011 after returning from her fellowship at Liverpool School of Tropical Medicine, United Kingdom.

She has been heavily involved in the Pandemic response in the hospital, with active involvement in logistics, vaccination, and management of patients for SARS-CoV-2.

Dr Wijaya has been involved in education with an interest in changing the teaching and learning for the learners using pedagogical evidence in reflection and transfer of knowledge. She is the Assistant Dean of Learning of DUKE-NUS Medical School and involved in the remediation and learning of the medical students.
