OBJECTIVES

- Gain an overview of fall risks factors
- Demonstrate the ability in selection of home assessment tools for varied client groups
- Be equipped with Skills in home assessment and home modifications for varied clients group
- Be equipped with knowledge of home assessment report writing

OUTLINE

- Effectiveness of Home Modifications & Influencing Factors
- Fall Risks Assessment
- Home Assessment
- Home Modifications for Varied Conditions
- Hands On for Home Modifications
- Community Resources & Home Visit Report

The course will also have a practical session at a mock-up room on Day 2.

FACULTY

Ms Lydia Choo

Senior Principal Occupational Therapist
Singapore General Hospital

Ms Lydia Choo graduated from University of Sydney with Occupational Therapy Degree and from Newcastle University with Master in Health Science. She has 16 years of working experience in various settings and has worked with patients who suffered from all conditions. She has contributed to the community at large in talks and workshops related to falls prevention and home safety and plays an active role in educating the new therapists on conducting home visits and intervention.

Ms Ng Shi Ying

Principal Occupational Therapist
Singapore General Hospital

Ms Ng completed her Diploma in Occupational Therapy with Nanyang Polytechnic and her Bachelor's Degree in Occupational Therapy at Queen Margaret University, Edinburgh. She has worked in a variety of inpatient setting from Orthopedics, Geriatric, Medical, Neurology and inpatient rehabilitation at satellite ward in BVH. She is the main therapist in charge of home therapy under the Hospital to Home Program.

During her course of work in covering home therapy for nearly 3 years, Shi Ying has encountered many real life issues faced by patients and their caregivers when they are discharged back home. Shi Ying is well equipped with knowledge on the equipment available for individuals to be use within home setting. Through her experiences in covering home therapy cases, Shi Ying has gathered various strategies to overcome environmental barriers at home whereby she would share with her patients.
