

# Podopaediatrics - The Growing Foot

## 7 - 10 November 2022

### Introduction

Do you feel overwhelmed when presented with a paediatric patient?

Unlike adults, children are constantly growing and developing physically and psychologically. For clinicians, it is as important to understand the different ages and stages of development as it is about the various conditions.

This course equips participants with insight and 'tricks of the trade' from many years of podiatry experience. By appreciating children as unique individuals through the course, participants will also become more comfortable and confident in treating them.

### Course Objectives

- Understanding key considerations when treating a paediatric patient
- Understanding the importance of obtaining a comprehensive history
- Conduct a thorough assessment of a paediatric patient
- Apply appropriate assessment strategies
- Apply clinical rationale by selecting, analysing, and interpreting relevant information

### Target Audience

Podiatrists and Allied Health Professionals

### Course Outline

- Obtaining a comprehensive history
- Stage and phases- development of various systems and structures
- Examination techniques specific to the paediatric patient
- Developmental disorders and conditions pertinent to the paediatric patient
- The young athlete
- Case studies and discussions

Duration : **4 half-days**  
Time : **9 am – 12.30 pm, SG Time**  
Device : **Laptop/ Desktop**  
required *(with microphone, speaker and webcam)*  
Platform : **Zoom Cloud Meetings**  
*(Meeting details will be provided at a later date)*  
Fee : **S\$630** (SingHealth)  
**S\$700** (Regular)  
*(inclusive of 7% GST)*

### Teaching Faculty

Originally from South Africa, **Caron Orelowitz, MNZM** moved to New Zealand in 1997 after completing her podiatry training. Over the years, she has developed a special interest in paediatrics, authoring several post-graduate papers around the paediatric patient. She has obtained a Post Graduate Diploma in Sports and Exercise Medicine and is currently submitting her thesis for a Master of Philosophy. Apart from her private practice, she works 2 days a week at the hospital in the High-Risk Foot Clinic.

She has been highly involved within the Podiatry profession in New Zealand and was recently awarded a Member of the New Zealand Order of Merit (MNZM) for services to Podiatry.
