TEACHING FACULTY

Mr Ng Boon Tat

MClinPharm, BCPP, BCPS, BCGP

**Principal Pharmacist (Specialist) – Psychiatric Pharmacy
Department of Pharmacy
Institute of Mental Health**

Mr Ng Boon Tat is a Principal Pharmacist (Specialist) with the Institute of Mental Health (IMH). He attained his Postgraduate Certificate in Psychiatric Therapeutics (with Distinction) with Aston University (UK) in 2005, followed by the Master in Clinical Pharmacy with the University of South Australia, and became US board-certified in Psychiatry, Geriatrics and Pharmacotherapy. In 2010, he completed his year-long intensive advanced training in Psychiatric Pharmacy Practice with the University of Southern California, and returned to set up the PGY2 Psychiatric Pharmacy Residency Programme in Singapore.

He runs the Clozapine Clinic collaboratively with psychiatrists since 2011, and provides psychopharmacotherapy consultations for complex and treatment-resistant psychosis and mood disorders. He serves in the IMH Institutional Research Review Committee and also reviews manuscripts for local and international biomedical journals. As a clinical education lead, he contributes to interprofessional education and faculty development at the cluster and national levels.

TEACHING FACULTY

Ms See Yen Theng

Director

Agency for Integrated Care, Community Mental Health Division

As the Director, Community Mental Health Division, Agency for Integrated Care, Ms See Yen Theng leads the building of sector capability and development of integrated mental health network. One of the key initiatives is the implementation of Dementia Friendly Communities (DFC) which aims to bring together health and social care providers, community partners, businesses and faith based organizations to support those with dementia and their families in a safe and inclusive community.

She also led in establishing the Dementia Nursing Home Design Resource Panel which is multi-agency comprising clinicians, policy makers, administrators and operators to develop a set of design guidelines and recommendations to make the nursing homes dementia friendly.
