- Says several single words (15-18 months)

Personal Social

- Finds objects that are hidden but easily detected (15 months)
- Drinks from a cup, takes off shoes & socks, assists with dressing and attempts to feed self (18 months)
- Imitates actions and every day activities (18 months)

Activities you can do with your child

- **Roll** a ball to him to catch while he is seated.
- **Walk** with pull toys.
- **Dance** to music.
- **Play** with blocks and shape sorters.
- **Allow** your child use a crayon/marker to draw freely on paper.
- **Show** your child how to draw vertical and horizontal lines.
- **Read** with your child. Have him help to turn the pages of the book. Point to pictures in the book and talk about them.
- **Look** at what your child is interested in and talk about it.
- **Name** body parts, toys and objects during play and daily routines to teach your child what they are called.
- **Take turns** when you play and chat with your child. Children learn from taking turns when you play, talk or explore.
- **Sing** nursery rhymes with actions and get your child to imitate them.
- **Hide** small toys and other things and ask your child to find them.
- **Allow** him to feed himself with a spoon and drink from a cup (some spilling is expected!).
- **Encourage** pretend play using toy telephones, cars, dolls, cooking sets, etc.

- **Avoid** use of screen media other than video-chatting.

Flag out when your child

- Does not babble, point or use gestures by 12 months.
- Does not speak a single word by 18 month.
- Has lost any language skills.
- Does not respond readily to affection.
- Not able to stand unsupported by 15 months.
- No attempts to take steps while holding onto furniture by 15 months.
- Does not walk by 18 months.
- Does not make attempts to scribble by 18 months.
- Cannot hold and use a spoon or cup by 18 months.
- Develops a hand preference, preferring to use one hand over the other.

Consult a doctor if you are concerned about your child's development.
